GOEX Corporation Adds Class 8 Clean Room Slitting Capabilities

February 2019- Janesville, WI- GOEX Corporation announces the recent completion of their ISO Class 8 certified clean room conversion center. This expansion to Secondary Operations helps assure GOEX customers in the medical and food packaging markets receive the sterile packaging materials they demand and deserve. Strengthened capabilities include slitting 4” minimum width, 48” maximum diameter finished rolls that can be packaged individually.

The new 50’ x 60’ space further demonstrates GOEX’s commitment to providing medical device and food manufacturers with high performance, packaging materials for critical applications. As the leading manufacturer of custom plastic sheet and roll stock, GOEX meets the highest standards and demanding requirements of the food and medical packaging markets. This unique expansion distinguishes GOEX as the only rigid sheet extruder in North America with such capabilities.

“GOEX has continually provided quality plastics in an environmentally-controlled facility. The addition of this ISO-certified, Class 8 cleanroom operation strengthens our ability to provide premier plastic products, be more flexible internally, and run more efficiently overall” says Joshua D. Gray, President & CEO of GOEX Corporation.

GOEX maintains an ISO 9001:2015, FSSC22000, and IMS certified QMS that provides customers with quality extruded plastic products specifically designed to meet the demands of their particular marketplace. To learn more contact Jay Jensen, V.P. Sales & Marketing at (608)373-7426 or visit www.goex.com
